ENVIRONMENT POLICY

AGT Ağaç San. Tic. A.Ş. regards it as a duty to leave a habitable world to future generations.

AGT Ağaç San. Tic. A.Ş. will endeavour to contribute to the environment in all its work areas. Not only AGT, but the whole world can only survive in this way, can safely look at a healthy future. For this, we undertake;

1. To comply with the obligations of conformity for the reduction and minimization of environmental pollution arising during the course of our activities in the environment in which the processes take place;
2. To reduce as much of our environmental impact as possible during our operations;
3. To endeavour to use reusable or recyclable materials and to reduce natural resource consumption;
4. To make continuous improvement of our environmental performance by setting new goals and targets;

To ensure informing our employees, our guests, our suppliers, our contractors, our services, our dealers and our neighbours and all our related shareholders and the parties concerned about our Environmental Policy and our work for reducing our impacts on the environment and making them be aware of and participate in that issue;

To reduce resource consumption and / or using it optimally; reducing waste quantities, reusing waste and providing the recycle of them.
