- 100% virgin materials
- Stain resistance
- Bending strength
- Noise reduction
- Scratch resistance
- Anti Cigarette burning
- Anti slip
- Impact resistance
- 100% waterproof

# About SPC flooring

SPC flooring is a new flooring material, which is advanced by being waterproof, rigid and dimensionally stable.

As an extruded core material, the SPC core is a composite material made of calcium carbonate, polyvinyl chloride and stabilizer. The wear layer and colour films are pressed on the SPC core after extruding. The IXPE underlay which can be applied to the back, is a good option for high end usage. E.I.R finish and bevelled v-grooves create that real wood feeling for SPC flooring.

As an advanced and experienced importer of SPC flooring Finfloor is convinced about the advantages of SPC flooring; i.e. 0 formaldehyde, 100% waterproof, ability to install over most surfaces with minimal preparation, high wear, dimensionally stable (is not easily deformed), noise reduction, stain resistance, anti-slip, fast installation and the ability to cover large floor areas without having to use expansion profiles.

Top and stable quality, quick production lead times, a large range of colours (both standard & special matches), real wood feel surfaces, long warranty. Finfloor is your reliable partner as a supplier of SPC flooring.

## Structure of SPC flooring

MARK FREE

Relax, marker pens are easy to clean using a wet/damp mop as Luxury double UV coating provides the stain resistance you would expect on a high quality floor

Afraid to use a marker pen on the floor?  
– no problem

100% virgin materials

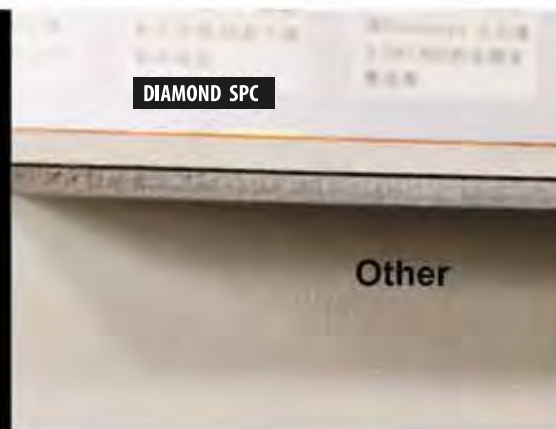

Our manufactures use only top quality calcium carbonate and polyvinyl chloride in the production of SPC flooring, they are 100% virgin material without any recycled materials

Look at the  
**super white core**

Stain resistance

**Can SPC flooring be used in the kitchen?**

**Stains are easily removed from our SPC flooring**

**Special double UV coating guarantees the super stain resistance of Finfloor's SPC flooring range of products. All normal household stains are easy to remove/clean :**

- Coffee
- Any type of sauce.
- Oils
- Coffee
- Vinegar and any other stains

**A wet mop is enough to make it clean**

Bending strength

**Our "Super quality" SPC flooring can be bent by 180°.**

**Inferior quality SPC flooring cannot, especially if there are recycled components in the material, or if there is a higher concentration of Stone compounds in the SPC core material.**

Noise reduction

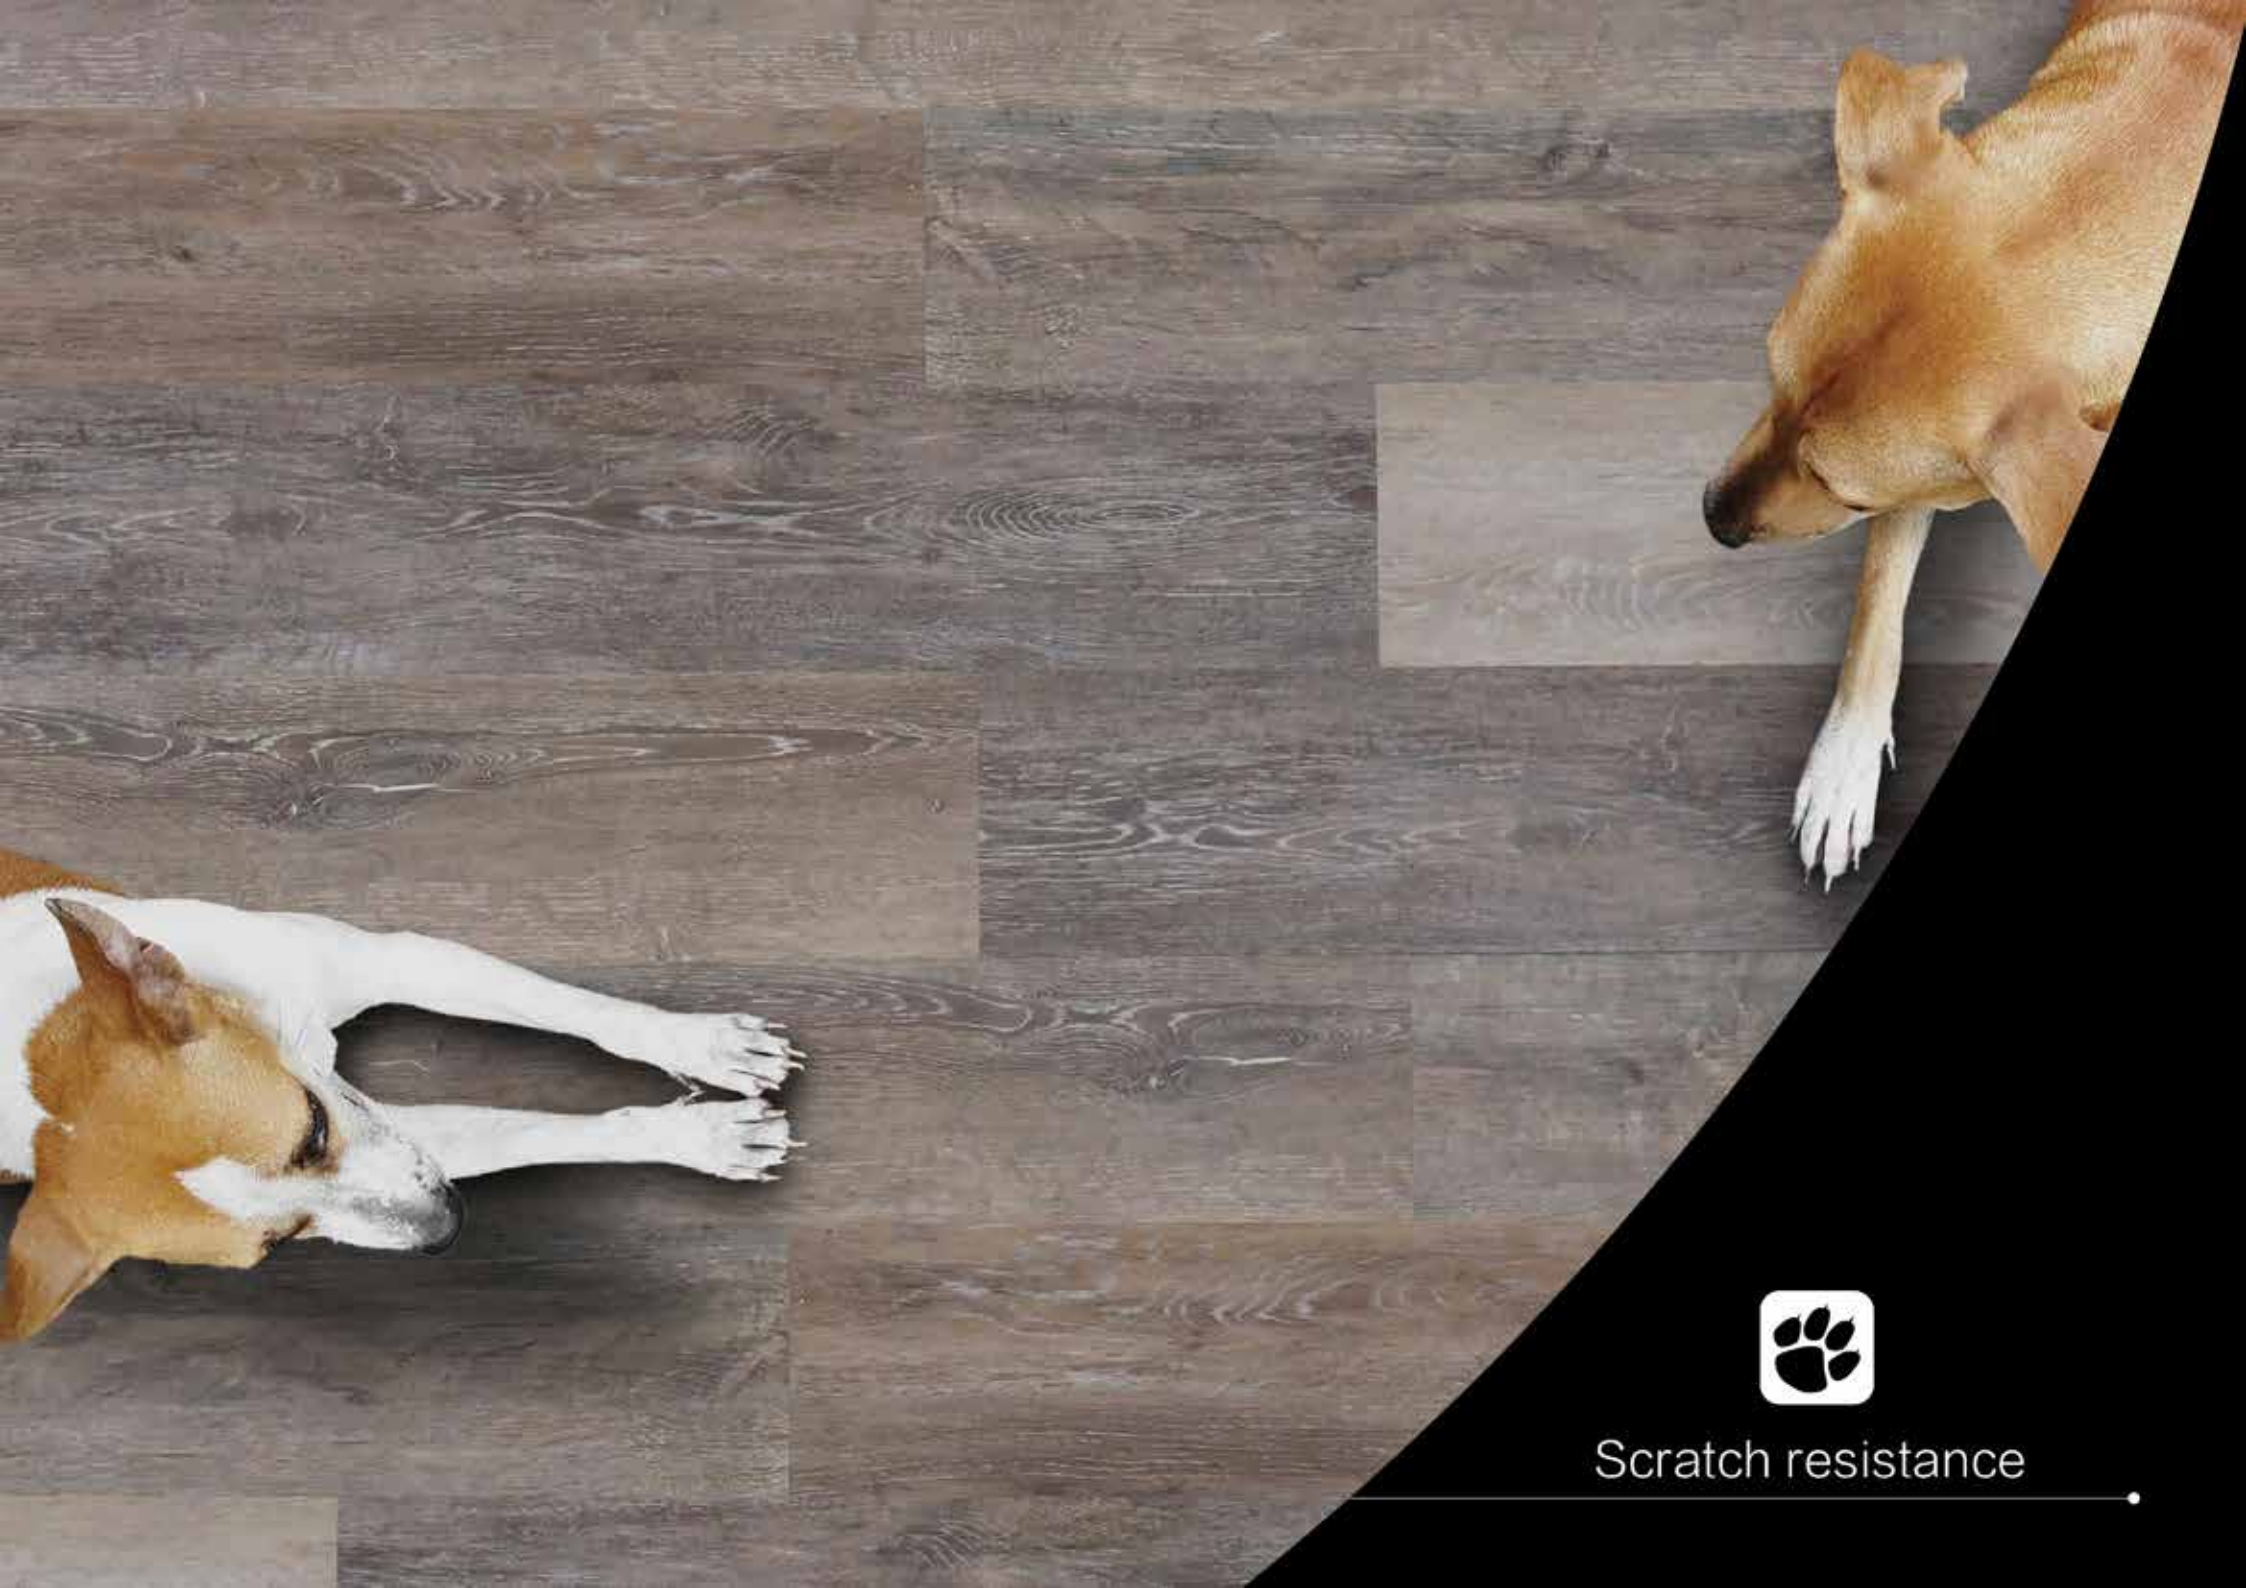

**SPC flooring with IXPE,**  
**Sound-absorbing and noise protection.**  
Enjoy your SPC floor for the acoustic qualities  
of the IXPE backer.

**We owe it to protect the environment, through sound insulation,  
moisture, etc. Families can enjoy a more quiet and comfortable  
indoor environment.**

Scratch resistance

1

**Finfloor manufacturers use “ceramic bead” technology, which is incorporated into the UV layer.**

**200% better scratch resistance than the normal UV coating used by some other suppliers of SPC flooring.**

2

3

Anti Cigarette burning

**Other**

**DIAMOND SPC**

1

**Should a burning cigarette or similar item be dropped on the floor**

– not to worry, no yellow marks or hole in the surface of your SPC floor.

SPC flooring is so easy to clean off the yellow stain from a burning cigarette.

Other SPC flooring without a Super UV coating will be a problem to remove these types of marks/stains.

**Other**

**DIAMOND SPC**

**Other**

**DIAMOND SPC**

3

Anti slip

- The slip resistance of Diamond, Sapphire and Diamond SPC tile are all rated as R9-R10.
- The surface texture of Finfloor SPC flooring has more frictional properties when water is spilt on the surface.

Impact resistance

## **Rigid Core**

Superior impact  
and dent resistance.

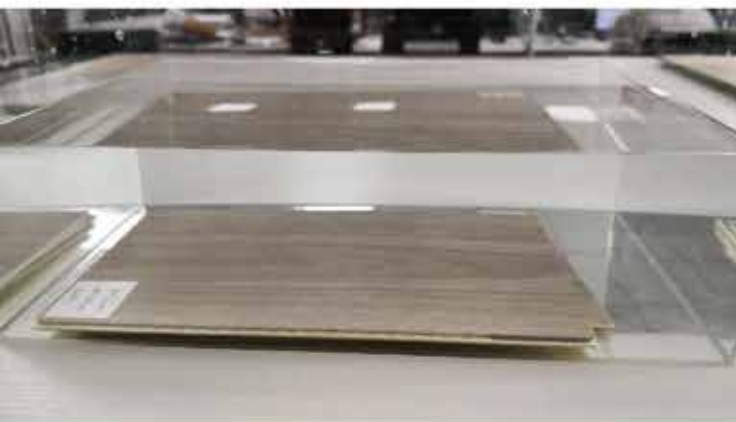

Unique raw materials and manufacturing technique. SPC flooring provides excellent impact resistance for you. You don't have to worry when you walk on it with new high heels or dropping your heavy suitcase on the floor after your trip.

100% waterproof

Finfloor SPC flooring is 100% waterproof, therefore, you can safely install our SPC flooring throughout your home.
